

INDUSTRIAL CONSTRUCTION & MAINTENANCE

**SPECIALIZED
CONSTRUCTION
SERVICES**

SCS PROVIDES A FULL ARRAY OF TURNKEY INDUSTRIAL CONSTRUCTION SERVICES AS WELL AS SERVICES TO SUPPORT OPERATING FACILITIES DURING OUTAGES AND OTHER TIME-SENSITIVE PROJECTS. WE MAINTAIN SELF-PERFORM CREWS COVERING STRUCTURAL, MECHANICAL, AND PROCESS PIPING WORK.

CAPABILITIES

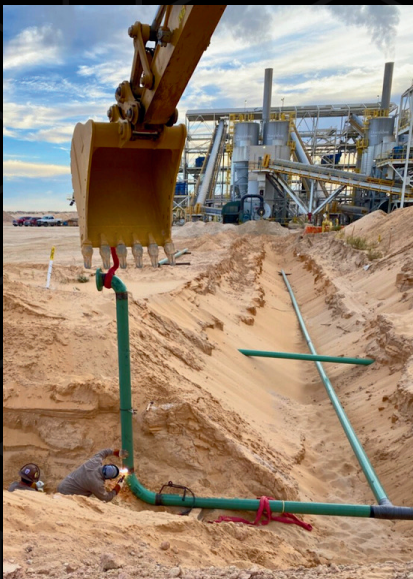

- Vertical and horizontal mills and kilns
- Material handling and conveying systems
- Structural steel erection and modification
- Rigging and heavy lifts
- Chutes, de-dusting systems, liners, and process modifications
- Plant and process equipment installation, replacement, and support

SCS executes work under multiple contracting strategies, including CM, EPCM, and direct-hire arrangements.

SERVICE APPLICATIONS

- Construction support during shutdowns and outages
- Capital equipment installation and replacement projects
- Structural and mechanical support for plant expansions
- Material handling system installation and upgrades
- Maintenance support for operating industrial facilities
- Work performed alongside electrical, piping, and civil trades

QUALITY & CONTROL

Industrial construction work is delivered in alignment with approved drawings, site procedures, and safety requirements. Field supervision oversees sequencing, access control, and quality verification to ensure performance-based execution and successful turnover.

WHERE SAFETY, QUALITY, AND
PERFORMANCE INTERSECT.

FIELD EXECUTION YOU CAN RELY ON

CREWS TAKE OWNERSHIP OF WORK FROM MOBILIZATION THROUGH TURNOVER. SEQUENCING, COORDINATION, AND FIELD EXECUTION REMAIN UNDER ONE TEAM TO REDUCE HANDOFFS, CONTROL RISK, AND KEEP WORK MOVING.

WHAT SCS DELIVERS

- Organized execution across active plant work
- Coordinated work plans across multiple trades
- Execution aligned with outage schedules and production needs
- Clear communication from mobilization through turnover

WHY CHOOSE SCS

- Proven experience executing industrial construction projects
- Ability to self-perform as a full-service contractor, including civil and electrical work
- Well-established field supervision with deep industrial experience
- Organized execution within operating plants
- Construction-based project solutions suited for today's operating environments

YOU RECEIVE ✓

- Work completed to site and engineered requirements
- Reduced downtime through organized field execution
- Fewer handoffs between trades and contractors
- Safe return to service following project completion
